

PROJECT!

Dear Dove Class,

I thought it would be a nice idea for you to have an ongoing project based on something that you are interested and passionate about! Your project can be about anything you like: your hobbies/interests, a particular person, a period of time in history, a scientific discovery, sport, movies, music...

Something that you can find out a lot of information about.

You may include:

- a contents page
- photographs
- PowerPoints
- printed information
- handwritten information (extra points for amazing presentation!)
- 3D models
- short films
- interviews or diaries

I would also like to see:

- quality of presentation
- range of interesting and well researched information
- a variety of images (some of which might be your own original photographs or artwork)
- an innovative and creative twist

I am looking forward to seeing your projects when we get back together again!

Good luck.
